Ultima 24V 35K 4"

StarStrand Ultima Star 24, a low-voltage 24 volt system, is for applications requiring additional light output. Ultima Star 24 produces over 241 lumens per foot. This product is covered with pliable plastic and features a unique white PC board for ultimate light reflection and has 6 pin connectors installed at each end for fast and secure installation. The maximum run is 100 feet and can be field cut every four inches. The white PC board is backed with an adhesive 3M tape for easy installation. Ultima Star 24 can be dimmed when used in conjunction with a dimmable driver and low-voltage magnetic wall dimmer, or a standard driver and optional RF dimming controller.
