

ET2 Partners With Emmy Winner Chip Wade for Dream Home

ET2 has completed its latest star-studded collaboration, teaming with Emmy award-winning HGTV star Chip Wade for his personal mountainside retreat, the Pinhoti Peak.

Across the two-story oasis nestled atop the Blue Ridge Mountains of North Georgia, ET2's shining presence can be felt everywhere from the dining area, bedrooms, stairway and outdoor patio that overlooks a pastoral ridgeline. ET2's signature contemporary lights wonderfully accentuate the Peak's modern rustic charm, this collaboration is the perfect marriage of complimentary aesthetics.

Chip picked fixtures that fit the Pinhoti Peak's minimalist modern look and feel. He chose fixtures such as the Grove and Halo for their tech savvy smart lighting functions and the Unity for its sculptural quality and radiant LED glow.

"This home was designed and built in pursuit of the ultimate standard. Exploring, designing and engineering the future of the residential building. Our guiding project aspirations include: compelling visuals, nature-inspired restfulness, minimal maintenance, timeless selections and functional space..."

ET2 is always in search of fresh collaborations that bring out the best of both parties and showcase the same tasteful versatility that now graces the Pinhoti Peak.
