

1. StarStrand Rainbow Aqua Star 24 LED Tape comes with water proof connectors on end of each section. Each connection should have silicone added to the threads of the connector to keep connection secure.
2. Do not exceed maximum runs listed on MAXIMUM RUN CHART. Connecting cords may be used between sections of StarStrand Rainbow Aqua Star 24 LED Tape when necessary. The length of the connecting cord does not affect maximum run. Maximum run distances listed are the length of StarStrand Rainbow Aqua Star 24 LED Tape only. Do not exceed distance of 12' between two sections of StarStrand Rainbow Aqua Star 24 LED Tape.
3. StarStrand Rainbow Aqua Star LED Tape is NOT supplied with an adhesive backing. It will be necessary to use mounting clips (53370), an aluminum channel (53373) or a 45° angle aluminum channel (53374) to secure StarStrand Rainbow Aqua Star 24 LED Tape.
4. All end terminations must be capped. StarStrand Rainbow Aqua Star 24 LED Tape comes with a screw cap to seal end connector. StarStrand Rainbow Aqua Star 24 LED Tape can be cut every 4". If tape is cut or if end connector is cut off for any reason, an end cap (53368) with silicone must be used. Silicone must be added to inside of end cap prior to installing and wipe off any excess silicone. Allow silicone to dry 24 hours prior to using StarStrand Rainbow Aqua Star 24 LED Tape for first time.
5. Weatherproof drivers, controller and amplifier are waterproof however cannot be submersed into water. We recommend installing these in a dry location or waterproof connection box. Drivers can be remote from tape. Use 48" 24V Outdoor Connection Cord (53364) and 144" 24V Outdoor Connection Cord (53365) to remote driver. It is not recommended to exceed 24' between driver and StarStrand Rainbow Aqua Star 24 LED Tape.
6. A RGB controller (53389) must be used to control this system. The controller is installed between the driver and the first section of tape. The driver output cord plugs into the RGB controller. The output cord from the RGB controller is then plugged into the tape. Refer to directions included in controller for controller operation.
7. If a run greater than 30' is required, install a (53390) RGB amplifier at the end of each run before continuing with additional StarStrand Rainbow Aqua Star 24. Each amplifier requires a driver large enough to power the remaining distance. The use of these amplifiers will allow you to use one RGB controller and the entire installation will be synchronized.

1. Direct Wire Driver
2. 53362 Output Cord
3. 53389 RGB Controller
4. 53390 RGB Amplifier

**MAXIMUM RUN CHART**

Series	Using Driver/Controller	Maximum Run
Aqua Star 24	60w Driver	13 Feet
	150w Driver	30 Feet

**5 YEAR LIMITED WARRANTY**

StarStrand™ LED Tape Lighting System components will be warranted for normal use for 5 years while the original purchaser owns it. Normal use means residential non-commercial use for no more than 6 hours per day in an environment that does not exceed 77°F.

Maxim Lighting International will, at its election, repair, replace or make appropriate adjustment where Maxim Lighting International inspection discloses any such defects occurring in normal usage within five (5) years after date of shipment. Maxim Lighting International is not responsible for removal or installation costs. This warranty is limited to the repair or replacement of the product only and that Maxim Lighting International is not responsible for any labor incurred. Use of incorrect installation methods and/or bulb wattage will void the warranty.

To obtain warranty service contact Maxim Lighting International either through your Dealer, Contractor or E-tailer, or by writing Maxim Lighting International, Attn: Customer Service Department, 253 North Vineland Avenue, City of Industry, CA 95746, USA, or by calling 1-800-486-2946 from within the USA and 1-626-956-4200 outside of the USA.

**DISCLAIMER OF IMPLIED WARRANTY**  
 IMPLIED WARRANTIES INCLUDING THAT OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE EXPRESSLY LIMITED IN DURATION TO THE DURATION OF THIS WARRANTY. MAXIM LIGHTING INTERNATIONAL AND/OR SELLER DISCLAIMS ANY LIABILITY FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES.

Some states/provinces do not allow limitations on how long an implied warranty lasts, or the exclusion or limitation of special, incidental or consequential damages, so these limitations and exclusions may not apply to you. This warranty gives you specific legal rights. You may also have other rights which vary from state/province to state/province.
