

55021

Please consult a qualified electrician if you are not certain of the installation.

55021

CAUTION: Before starting the installation, disconnect the power by turning off the circuit breaker or by removing the fuse at the fuse box.

Carefully unpack and identify all parts before assembly.

Installation Procedures

1. Inset glass shade into metal frame of fixture.
2. Attach top cover to bottom cover at stem and secure by screwing decorative cover and finial to top cover.
3. Pull power supply wires from fixture and wire the fixture to the post. Connect copper ground wire to ground wire, black wire to black wire (positive), white wire to white wire (neutral) using wire connector.
4. Secure the fixture body to the post using the fasten screws provided (3 pcs).
