LED FILAMENT BULBS

An innovative acrylic light tower is laser etched to create the effect of a filament bulb. Choose from varying styles that can be installed on any medium base socket. Bulb types range from everyday shapes such as ST64 or G40, and includes large scale A52 glass types, interesting diamond shapes and patterned glasses. In addition, There are two oversize Flexible Filament LED bulbs available. The glass is hardened making it more durable than average bulbs on the market. Inspired by vintage squirrel cage filaments, these bulbs will create the look of a full fixture without the expense.
