MAXIM®
LIGHTING

At Maxim, ceiling fans do more than just move air—they redefine your space with style, functionality, and innovation. Thoughtfully crafted to balance form and performance, our fans deliver powerful efficiency while enhancing your decor. From classic, conventional designs to cutting-edge Fandelights that combine stunning light fixtures with discreet, high-performance fans, Maxim offers options for every taste, need, and budget. With approachable pricing, we ensure our fans are as accessible as they are stylish. Our advanced control systems, featuring magnetic remotes, Wifi capabilities, and easy-install solutions, set us apart from the rest. With premium materials like solid wood blades, rattan accents, and trend-forward finishes, every detail is designed to elevate your space while keeping you comfortable year-round. Maxim Lighting fans are more than functional—they're a stylish and innovative choice that leaves a lasting impression.

KEANU

KEANU | 88753 | 88754 | 88755

Inspired by the effortless rhythm of a gentle breeze, the Keanu fan brings both form and function to indoor and outdoor spaces. Its graceful curve appears like carved wood but it is made of ABS blades designed for durability in Wet Location applications. The energy-efficient DC motor ensures quiet, powerful performance. Offering versatility for any setting, the Keanu is available as a close-to-ceiling hugger or with down rod options, with or without an integrated, CCT-tunable light kit. The LED is adjustable from a warm 2700K to bright 5000K. Choose from Matte White, Matte Black, or Satin Nickel finishes, with Teak wood blade options for Matte White and Walnut wood blades for Matte Black. Complete with a DC wall control, the Keanu delivers a refreshing blend of modern design and year-round comfort.

DAISY

DAISY | 88826

For larger spaces, a larger blade sweep is sometimes required. This minimalist design is pure and simple. Elongated plywood blades span 60 inches and finished in Matte White contrasting the motor housing's Natural Aged Brass finish. The two tone finish makes for a stylish and bright fan great for interior spaces. Wall control with dual slide dimmer and fan speed control is provided.

SEABORNE | 88723

Seaborne is engineered to thrive where others can't. This marine-grade fan is crafted entirely from non-corrosive materials, including an ABS body, blades, and canopy, to resist salt air, moisture, and harsh climates. A fully integrated wet-location light kit adds functional illumination without sacrificing durability. Clean, modern lines make Seaborne the ideal solution for coastal
patios, covered decks, and open-air living spaces where endurance meets elevated design.

FAN TIPS

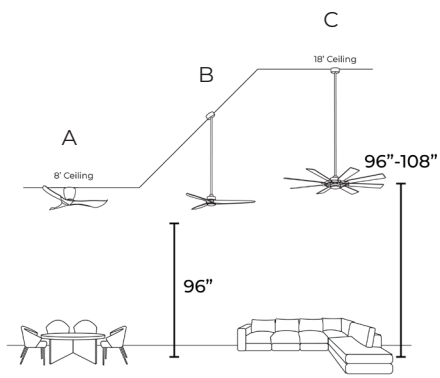

Winter:
Clockwise

Summer:
CounterClockwise

MOUNTING OPTIONS

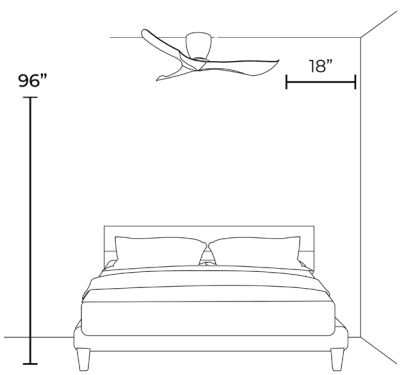

A fan should be 96" from the ground to the ceiling.

Side Note: Below are 3 Mounting options.

A

CLOSE TO CIELING

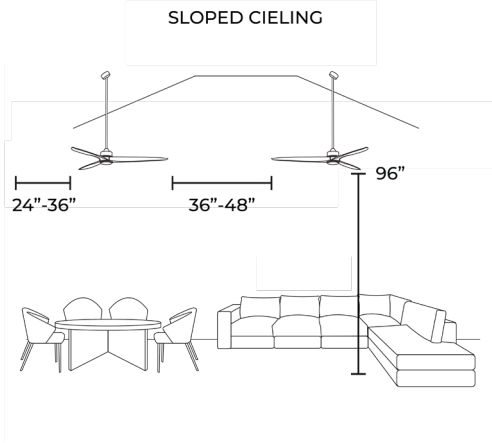

A fan should be 84" from the ground while keeping 36-48" above the bed. Leave an 18" distance from any surrounding walls.

Note: See Fan Sizing Per SQ.FT below.

B

SLOPED CIELING

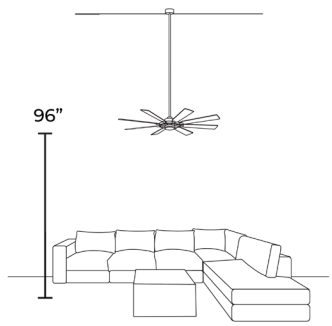

Large open spaces may require more than one fan in the room. Fans should be spaced 24-36" away from any wall, and leave at least 36-48" between fans.

Note: Slope ceiling adapter needed for over 20° pitch.

C

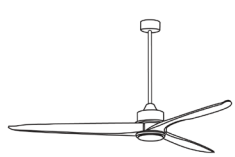

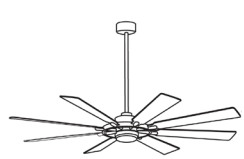

EXTENDED -
HIGH CIELINGS

A fan should be 84" from the ground while keeping 36-48" above a seating area.

Note: See down rod capability chart.

Sizing a Fan

90-120 SQ. FT.	120-350 SQ. FT.	OVER 350 SQ. FT.
		
44"-52"	48" -58"	60" OR LARGER FANS

CONTROLS

Easily adjust the speed and direction of your fan with a wall control. Adjust color temperature using a color tunable fan and wall control.

RESOURCES

The direct current fans, or DC fans, are powered with a potential of fixed value such as the voltage of a battery, An AC fan motor is an electromechanical device that converts electrical energy into mechanical energy to rotate fan blades.

Damp Rated Fans are suitable for use in outdoor areas with covered ceilings such as patios or open walkways.

Wet Rated fans are approved for use outdoors that may experience direct contact with water.

The ETL Listed Mark indicates to distributors, retailers and customers that your product has been tested by Intertek and found in compliance with accepted national standards.

Energy Star is a government-backed labeling program that helps people and organizations save money and reduce greenhouse gas emissions by identifying items that have superior energy efficiency.

California Energy Commission regulation that lists both Title 20 and Title 24 Appliance energy requirements.

Department of Energy (DOE) federally regulated Fan listing.

Dimmable led lights mean you can adjust the brightness or lumen levels according to your needs.

Wi-Fi enabled means that a device can connect to the Internet when there is a local Wi-Fi network connection available.

Wi-Fi enabled Control allows the user to control color temperatures between a range, typically between warm 2700 and cool 5000K and everything in between.

Either toggle or remote based switch that allows the user to define between 3-5 fixed color temperatures with memory function.

WARRANTY

1. **Limited Lifetime Motor Warranty:**
If any part of our fan motor fails, due to a defect in materials or workmanship during the lifetime of the original purchaser, Maxim Group will provide the replacement part free of charge, when the defective fan is returned to our national service center. Proof of purchase is required is required. The customer shall be responsible for all costs incurred in removal or reinstallation and shipping of the product for repairs or replacement.

2. **One Year Motor Labor Warranty:**
If your fan motor fails at any time within one year from the original purchase, due to defects in materials or workmanship, labor to repair the motor will be provided free of charge at our national service center. The purchaser will be responsible for labor charges after this one-year period. Customer shall be responsible for all costs incurred in the removal or installation and shipping of the product for repairs or replacement.

3. **If any other part of your fan fails at any time within one year after original purchase**, due to defect in materials or workmanship, we will repair or replace, at our option, the defective part free of charge for parts and labor performed at our national service center.

4. **Because of varying climate conditions,** this warranty does not cover changes in the finish, including rusting, pitting, corroding, tarnishing, or peeling.

5. **This warranty is void and does not apply to** damage from improper installation, neglect, accident, misuse, exposure to extremes of heat or humidity, or because of any modification to the original product.

6. **All costs of removal and reinstallation of the fan** are the sole responsibility of the owner of the fan and not the store that sold the fan or Maxim Group.

7. **Maxim Group reserves the right to modify or discontinue** any product at any time and may substitute any part under warranty.

8. **Under no circumstances may a fan be returned without prior authorization from Maxim Group.** The receipt of purchase must accompany authorized returns and must be sent freight prepaid to Maxim Group. The fan to be returned must be properly packed to avoid damage in transit; Maxim Group will not be responsible for any damage resulting for improper packaging.

9. **It is understood that any repair or replacement is the exclusive remedy available from Maxim Group.** There is no other expressed or implied warranty. Maxim Group hereby disclaims any and all implied warranties, including, but not limited to those of merchantability and fitness for a particular purpose to the extent permitted by law. Some states do not allow limitations or implied warranties. Maxim Group will not be liable for incidental, consequential, or specials damages arising out or in conjunction with the product use or performance, except as may otherwise be accounted by law. This warranty gives you special legal rights and may also have other rights that vary from state to state.

10. **A certain amount of wobble is normal** and should not be considered a problem or a defect.
