BASQUE

The timeless Empire chandelier shape styled in timeworn, natural finishes uses durable steel in a Driftwood finish that includes a spherical ornament in matching finish. The arms curve steeply, swept lower than the chandelier's center, emphasizing the chandelier's height while mitered angles at its top accentuate the thickness of the barrel-like planks. Exposed candelabra lamps on Anthracite candle covers adding texture and contrast. The result of the organic wood tones reduces the formality of the classical shape making the elegance of this design more inviting.

- Robust steel construction with mitered top edge detail
- Realistic Driftwood finish with coordinating Anthracite accents
- Includes spherical charm in Driftwood

These finish combinations not only add dimension and interest, but they are enhanced with the contrastingly brighter accents against the rich, weathered finishes. Extended chain links with smoky beveled crystal charms drape the Ecru and Gold Leaf finish combination, while the darker Golden Noir variation features strands of patinaed silver wooden beads.

TAHOE

A refreshing take on reflector shades from the early days of Mid Century modern design, the Tahoe thoughtfully applies LED light to a classic concept. The LED housing that shines light against its metal shade painted white on its interior for better reflection is also punctured with a hole at its apex to cast light on the square-tubed yoke supporting it. Much more angular than the traditional reflecting up-light shaded pendant, this pendant brings more function to its fashion. A convenient LED lamp is also included facing down to illuminate the space below. Finished in a striking Black and Satin Brass combination, this pendant certainly calls attention while casually existing in its space.

WAFER

Wafer was designed for the discriminate consumer who wants the low profile look of recessed without the high cost. Manufactured of die cast aluminum, Wafer brings ultimate heat dissipation to its edge lit technology. Edge lighting gives very even light distribution while dispersing heat over a larger area. The result of this is longer LED life and better light diffusion.

ADMIRALTY

Coastally inspired, the wide brimmed aluminum spun shade on this series of outdoor rated sconces, pendants, and flush mounts features a tiered shade design. The ringed separation features a filigree of oval cut outs, whereby a single lamp illuminates the Satin White glass supporting it. The resulting light is dispersed both above and below the spun shade as well as through the patterned filigree. Both modern and classic homes can appreciate this classic design reimagined. The series is available either in matte Black or a striking two-tone Black with Antique Brass.
