

PRODUCT DESCRIPTION

The next evolution of our already leading recessed technology, Tile is another ultra-low-profile surface mount with even more functionality. The fixture nestles into a standard junction box, delivering the clean look of a recessed gimbal without the complexity of housings or cans. Its adjustable head lets you precisely aim light for accent or general illumination, while the minimalist form keeps ceilings quiet and refined. Economical, flexible, and technically advanced, Tilt is made for projects that demand performance and polish.
